CLINIC REVIEW LETTER

Patient name: **Amina Wanjiru**
Date of birth: **12/03/1974**
Clinic No: **UFC-008812**

Dear colleague,

I reviewed Mrs Wanjiru today in the diabetes clinic. Her recent blood results show an HbA1c of 7.4% and raised LDL cholesterol. Blood pressure today was 138/86 mmHg.

Diagnoses:

- Type 2 diabetes mellitus
- Hypertension
- Hyperlipidaemia (new)
- Iron deficiency anaemia (new)

Allergies:

- Penicillin (rash and swelling)
- Sulfa drugs (hives)

Current medications:

- Metformin 1 g BD (dose increased today)
- Amlodipine 5 mg OD
- Atorvastatin 40 mg nocte (dose increased)
- Empagliflozin 10 mg OD (new)
- Ferrous sulphate 200 mg OD for 3 months

Immunisations:

- Influenza vaccine given 15/10/2026, batch FLU-2210

Plan:

- Repeat HbA1c and lipids in 3 months
- Review in 3 months
- Diabetic eye screening referral

Yours sincerely,

Dr. Achieng Otieno
Medical Officer, KMPDC Reg No: A12345
